

Mushroom Foray at the Yankee Woodlot in Skowhegan

Saturday, September 16th, 9 to noon

Please join the Upper Kennebec Valley chapter as we go on a mushroom foray with mycologist Michaeline Mulvey of the Maine Mycological Society. Michaeline has led a few of these for our chapter and she is full of great information. She will lead us on a foray that will include identification, an explanation of a mushrooms' place in the forest ecosystem, and ethical harvesting. Bring questions and mushrooms. Be prepared for bushwhacking. Also useful: basket, knife, paper bags, hand lens, notebook, field guide. Meet at Somerset County Extension office, between Margaret Chase Smith Library and KVCAP office at 7 County Drive off the Back road in Skowhegan. This is a rain or shine event, and no need to pre-register, just show up to learn mushrooms! Any questions contact Patty Cormier, 592-2238 or email - patty.cormier@maine.gov
