

BASIC & ADVANCED EROSION & SEDIMENT CONTROL TRAINING

Don't let your certification lapse - renew it ahead of time to prevent starting over.

Thursday, Oct. 25, 2018

8:00 a.m. - 4:15 p.m.

Strong Town Office in the Foster Memorial Building - 14 South Main Street

If you are still in need of the training to become certified or to get re-certification credits, the Maine Department of Environmental Protection and the Franklin County Soil & Water Conservation District urge you to attend our training session in Erosion & Sediment Control Practices.

Don't lose work opportunities - get certified or re-certified - register for this course today.

This class is designed for first time individuals needing to become certified. W will take others. Everyone must attend the full session.

By attending this session, you qualify to become DEP certified in erosion and sediment control practices after the completion of a site evaluation. You will also learn about new state-of-the-art erosion control techniques and ways to save time and money on your construction projects as well as become eligible for discounts, expedited DEP permitting and other free educational resources.

For more information about the benefits of contractor certification, visit

www.maine.gov/dep/training.

**** See the important message on page two of this form ****

- 3:00 P.M. Erosion Control Plan Design Exercise - Bill LaFlamme
- 3:50 P.M. Next Steps in obtaining Certification - Bill LaFlamme

DEP Erosion & Sediment Control Practices Training

New "Certified Contractor Grace Period"

In the past, the "grace period" for certified individuals to obtain credits for re-certification was two years. This was to provide ample opportunity for them to attend a training course which were generally only offered in the Fall and Winter. Most certification and licensing programs offer a much shorter "grace period" to obtain continuing education credit.

For these reasons, we at the Nonpoint Source Training have decided to shorten the "grace period" to **six months** from the date of the expiration of certification which is consistent with other licensing and certification programs.

What this means is that starting on December 31, 2016 you will now have until June 30th of the following year after expiration of your certification, to obtain the necessary re-certification credits. If you do not obtain credits by that time you will be removed from the list and must again go through the certification process to be re-instated.
